

Risk-management software for acute care

NEW! RL6:Risk for acute care

Reduce adverse events and improve patient safety

Quickly identify areas of improvement

RL Solutions' Incident Management Reporting System has earned the exclusive endorsement of the American Hospital Association.

software for safer healthcare
rl solutions[™]

Put the spotlight on risk management

We know you do great work for your hospital managing risk. But, your efforts can sometimes go unnoticed. Now, you can show your peers the great work you've been doing with RL6:Risk from RL Solutions.

RL6 is a comprehensive safety, quality and risk-management solution that helps manage adverse events, from start to finish. Our flexible, easy-to-use software encourages event reports and, ultimately, helps to reduce the severity of incidents and the overall risk within a hospital.

- **Create reports** without involving your IT department. Answer any question that your leaders and peers might have.
- **Capture more near misses** and good catches to see a complete picture of what's happening in your hospital.
- **Build a case** that helps you get funding for safety initiatives.
- **Spot trends**, with comprehensive reports that help you prevent incidents—before they happen.
- **Personalize your workspace** to display the info that you want to see.
- **Share your data** internally and externally with regulatory bodies, PSOs and insurance companies.

“Since we've started using RL Solutions' risk-management software, our patient-safety reporting has gone up by 25%.”

Erin Graydon-Baker, Director of Patient Safety,
Brigham and Women's Hospital

RL6:Risk is great for:

Risk managers
Quality-improvement specialists
Patient-safety officers
Analysts and program directors

Capture more. Do more.

RL6 is easy to learn—and easy to use

1. Access **do-it-yourself reports** that let you drill down to specific details.
2. **Customizable forms** allow you to collect the information you want, the way you want it.
3. **Real-time alerts** let you know when high-priority incidents need your attention.
4. Capture and record all relevant incident information with completely customizable management **forms**.
5. **Configurable widgets** mean that the functions you need are only a click away.
6. Comprehensive **audit log** tracks all actions, including who has viewed and changed files.
