

Acute-care software by RL Solutions

Easy-to-use, flexible software that adapts to
your hospital's unique needs

Over 15 years' experience building healthcare software

Designed specifically for acute-care facilities

Why choose RL Solutions?

Organizations choose RL Solutions because we listen to our clients and strive to make every interaction — both with our software and directly with our people — as pleasant and easy as possible. RL Solutions is passionate about developing great software that our clients can use to achieve great things. Since healthcare is the only market we serve, we're 100% dedicated to understanding our clients' unique needs.

We offer customized solutions for select healthcare specialties, including acute care, because we don't believe in a one-size-fits-all approach. Instead, we build flexible software that we can configure and adapt to suit each organization. Improve your patient safety and quality of care by becoming a safer hospital with RL Solutions software.

Who works with RL Solutions?

We have over 600 clients in Canada, the United States, Australia, New Zealand, Qatar, Saudi Arabia, Denmark and the Bahamas—and we're growing. We're proud to serve a diverse group of healthcare clients, the majority of which are in acute care. Clients include:

- Boulder Community Hospital
- Brigham and Women's Hospital
- Credit Valley Hospital
- Cincinnati Children's Hospital
- Johns Hopkins Hospital
- Massachusetts General Hospital
- Mater Health Services Brisbane
- Mount Sinai Hospital
- Princess Margaret Hospital
- Vanderbilt University Medical Center

Software for acute care

PATIENT FEEDBACK

RL6:Feedback lets you capture feedback from multiple sources—including surveys, kiosks and staff—and transform it into useful, actionable information.

- **Share information** with state and federal reporting bodies, and executives and staff at your hospital.
- **Analyze data** using dozens of built-in templates, or create your own reports.

INFECTION CONTROL

Infection MonitorPro helps infection preventionists (IPs) reduce the impact of healthcare-acquired infections and instantly respond to infection risks through real-time alerts.

- **Spend less time** reviewing infection evidence and more time preventing infections.
- **Lets IPs triage infection evidence** and decide what needs their attention.

CLAIMS MANAGEMENT

Claims MonitorPro helps you manage all medical malpractice and liability claims, from first notice to resolution or settlement.

- **See your financial status instantly** through Loss/Run, Aggregate Erosion, Triangle and Claims Transaction reports.
- **Includes CMS Section 111** export functionality.

PATIENT SAFETY ORGANIZATION

ECRI Institute's Patient Safety Organization, powered by RL Solutions software, is a complete PSO back-office solution.

- **Capture, aggregate and analyze** patient-safety work product.
- **Accepts electronic file transfers** and manual input, including easy uploads from RL Solutions' risk-management software.

RISK MANAGEMENT

RL6:Risk is flexible, easy-to-use patient-safety software that gives risk managers the data they need to track adverse events and increase incident reporting.

- **Do-it-yourself reports** that let you drill down to specific details.
- **Customize your forms** to capture and record all relevant incident information.

RL Solutions' Incident Management Reporting System has earned the exclusive endorsement of the American Hospital Association.

“RL Solutions’ feedback-management software has everything we wanted and more—and was priced right as well. If I had to do it all over again, I would choose the same product. We’ve been extraordinarily satisfied.”

Kathleen Cox, IT Special Projects, Texas Health Presbyterian Hospital Dallas
