Comprehensive risk management software

Managing risk is important at every healthcare facility. But, with your multiple responsibilities, it's tough to find the time you need. Just getting staff to report incidents is hard enough. RL6 can help.

With RL6:Risk, you can quickly capture information about incidents and route that information to the right person for immediate attention. Since RL6 tracks everything electronically, you can also monitor incidents to ensure that they're resolved in a timely manner. Plus, generate reports for directors and executives with just a few clicks.

It's time to enhance your residents' quality of care and improve the morale of your staff. It's time for RL6.

- **Meet your regulatory requirements**—RL6 captures the information you need to report incidents to the state
- **Create files** for every reportable incident, including falls, pressure ulcers and bedsores
- **Personalize your workspace** to display the info that you want to see
- **Track incidents** with easy-to-use submission forms, customized to your facility
- **Share your data** with federal & state-level reporting bodies, insurance companies & PSOs—right from RL6

“RL Solutions' risk management software alerts me to higher-severity incidents within 5 minutes. Now I can proactively make recommendations, instead of days or weeks after the event.”

Christina A. Wildrick
Director of Risk Management
Peace Church Compliance Program

RL6:Risk is great for:
Risk Managers
Quality Improvement Specialists
Administrators
Analysts & Directors

Capture, track and resolve incidents

RL6 is easy to learn—and easy to use

1. Access **do-it-yourself reports** that let you drill-down to specific details
2. **Real-time alerts** let you know when high-priority incidents need your attention
3. Capture & record all relevant incident information with completely customizable management **forms**
4. Configurable **widgets** show you additional file information
5. Comprehensive **audit log** tracks all file actions, including who has opened & viewed the file
6. Common **functions** are just a click away—no complicated menus!

The screenshot displays the 'Fall Management Form' interface. At the top, it shows the 'rl solutions' logo and 'RL6: Software for Safer Healthcare'. The form is titled 'Fall Management Form' and is divided into several sections:

- General:** Contains 'Person Classification' (General Event Type: FALL, Classification of Person Affected: IN-PATIENT) and 'Event Classification' (Specific Event Type, Injury Incurred?, Equipment Involved/Malfunction..., Confidential?).
- Person Affected:** Includes 'Person Identification' (MRN#, Last Name: MAC DONALD, First Name: MEGHAN, Title) and 'Other Identification' (SIN/SSN, Health Card #, CAF/HCID #, ICD-9 Code, Client #, Other #, Employee ID#, Treatment Code, Gender, DOB/Age, Other Characteristics).
- Right Sidebar:** Features a 'Logo' for General Hospital, a 'Contents' menu (General, Person Affected, Specific Event Details, When and Where Event Occurred, Discovered by, Reported by, Witness, Who Did It Tell?, Attachments and Notes, Follow-ups, Resolution, Staff Member Involved), 'Alerts', 'Tasks' (with a table showing a task for '05-13-2010 Check File Status High'), 'Folders', 'Follow-up Actions', and 'Settings'.
- Bottom:** Includes 'More Actions', 'Save', 'Save & Exit', and 'Exit' buttons.

RL Solutions designs innovative healthcare software for patient and resident feedback, incident reporting and risk management, infection surveillance and claims management. At RL Solutions, nurturing long-lasting relationships with our clients is what we do best. We have over 600 clients, including healthcare networks, hospitals, long-term care facilities and more. RL Solutions is a global company with offices in Canada, the United States, Australia and the United Kingdom.
